GRAND MUSICAL RECITAL AT ORPHEUM THEATRE NOV. 6

A grand recital will be staged at the Orpheum Theatre on the night of Tuesday, November the 6th, by the piano and violin pupils of Miss Chardon and Mr. Moser, assisted by Mrs. Gordon Steeves, Blairmore, and Mr. Edgar Rhys, Hillcrest. Tickets for the recital will be on sale this week end.

Adult's tickets may be exchanged for reserved seat stubs at the Blairmore Pharmacy.

LARGE AUDIENCE HEARS INTERESTING LECTURE

The opera house was very well filled to capacity on Saturday night for the lecture by Mr. P. W. Collins, of Boston. Mr. Collins' theme was an appeal for better relations between capital and labor and a better understanding of their mutual interests. All through the audience was kept spellbound while Mr. Collins in his masterly manner delivered a word-picture of present-day conditions and world needs.

DEATH OF F. B. ROBERGE

Word has been received of the death of F. B. Roberge, California, of F. B. Roberge, former resident of Blairmore.

His death occurred on August the 21st. He was better known as "Alphonse the cook." He and his wife were visiting with old friends in California, where he had gone following eight months illness with heart trouble in Alberta.

The remains were laid to rest at Santa Barbara.

Mrs. Roberge has returned to Little Gem, Alberta, where she will in future reside.

DEATH OF MRS. J. McPHEE

The death occurred at Spokane on Friday evening last of Mrs. J. McPhee, formerly Miss Ruth Corkland, of Blairmore.

She had been ailing for some time, during which she underwent two critical operations. She was twenty-two years of age and the only child of Mr. and Mrs. George Corkland, who formerly resided at McLaren's Mill here. The remains were brought to Fernie for burial.

FIRST AID ASSOCIATION TO COMMENCE CLASSES

The Blairmore First Aid Association will hold its first class of the season in the general office of the West Canadian Collieries, Limited, on Sunday morning next, October the 28th, at 10.30. All members, especially beginners, who were recently enrolled, are kindly asked to bear this in mind and be present to take up the work from the start.

A cordial invitation is extended to any others wishing to take up first aid work and who have not as yet been enrolled, to come out for the first class on Sunday.

The question has repeatedly been asked by business people and others why, through the agency of Councilor Ferguson, the thousands of dollars worth of washing machines are allowed to come into Blairmore and be distributed without the payment of one cent of school taxes thereon. The school ordinance empowers the secretary-treasurer to assess such goods as soon as they enter the town or are delivered by the railway. They are assessable and why not collect the tax? Other persons in the district have paid taxes on them.

SALE OF WORK AND TEA

in the Lodge Hall, Blairmore,

on Saturday, October 27th

from 8 to 6 p.m.

Under Auspices of CROWVIEW, REBEKAH LODGE

Speaking of hockey, the Clarendon Local Press remarks: "There are some new boys in town on the staffs of two banks who have played considerable hockey, and with what is available locally, not more than three outside players should be required. Some of the Blairmore boys have been feeling for a location here, and Laurie Scott wants to send a brother of his down here. Young Scott played on the city league team in Kitchener, Ontario, last winter."

At the second meeting to be held in connection with Rotary here, it was decided at the first regular banquet last night to appoint a committee and go ahead with the formation of the Pass club in Blairmore.

Walter Scott, an attendant at the Ponoka asylum, has been sentenced to five years in jail for having severely beaten Dr. Arthur Hobbs, an elderly patient, that he died from pneumonia induced by the injuries.

REV. H. LAURENCE NOBBS RETURNING TO ENGLAND

Rev. H. L. Nobbs has tendered his resignation as rector in charge of St. Magdalen's Anglican church, Drumheller, and with his family will leave for England next week. Rev. Mr. Nobbs was formerly in charge of Anglican mission work in Coleman and Blairmore and moved to Drumheller two years ago. Prior to coming to Canada he was attached to parishes in Essex and London. He served overseas with the 7thth Canadian and the 8th Field Ambulance. His various appointments now held include that of Chaplain of the Canadian Legion, B.E.S.L., judge of the juvenile court and member of the provincial council of the Canadian Red Cross Society. He is also a member of Coal City Lodge, Knights of Pythias.

CONCERT AT ORPHEUM SUNDAY NIGHT NEXT

A grand sacred concert will be held at the Orpheum Theatre on Sunday night, commencing at 8.30, under the auspices of the Coleman Amateur Orchestra Association and under the directorship of Mr. J. Fulton.

The chair will be taken by Mr. M. Johnson, mines inspector, and a splendid programme will be rendered, with Messrs. Edgar Rhys and others assisting.

A collection will be taken to defray expenses.

ONE PASS FIFTEEN YEARS AGO

(The Blairmore Enterprise, 1913)

September 5.—The marriage of Harry B. Berry to Miss E. Chatfield took place here on Wednesday afternoon. Rev. W. H. Munceaster officiating.

Dick Marshall lost a decision in a boxing match at Fernie on Monday night to Cyclone Scott, of Vancouver, in a fifteen-round go.

A young lady in Illinois who appeared on the street in a slit skirt that showed the limbs for about three inches above the knees, has been sent to an asylum.

W. Cole, of the Bellevue poolroom and ice-cream parlor, was caught in the act of dancing at the Sanatorium hotel on Monday night.

The first passenger train to leave the new C.P.R. station at Edmonton, pulled out on Labor Day.

S. Tromo, jeweler, has installed an engraving machine of modern type.

At the opera house on Wednesday night, Jack Taylor undertook to throw six men in one hour. The first victim was Ole Olson, the big Swede, who went down in 2.28 minutes. Jean Fournau lasted 6.16 minutes.

The first train of the Grand Trunk Pacific to enter Calgary over its own rails steamed into that city on Sunday last.

The Macleod Advertiser ceased publication with last week's issue, and passes over to the Spectator Publishing Co.

A session of the District Court opened in Blairmore on Wednesday, when forty-five cases were disposed of. These cases had legal representation as follows: H. H. Roberts 4, H. C. Moore 9, L. H. Putnam 26, Campbell & Gillis 5, J. R. Palmer 3, Colin Macleod 3, T. Eide 1, Peacock & Lyons 1, Johnstone & Ritchie 2, R. C. Cameron 1. The sitting was presided over by Judge E. P. McNeill.

W. Ayres has severed his connection with the West Canadian Collieries' office staff.

The proprietor of this paper is attending the annual convention of the Alberta and Eastern British Columbia Press Association at Edmonton.

WORLD HAPPENINGS BRIEFLY TOLD

Choked by a piece of carrot which lodged in his throat, John William Black, of Ogdenburg, N.Y., died in hospital at Prescott, Ont.

R. W. Beatty, president of the Canadian Pacific Railway, recently celebrated his 51st birthday. Mr. Beatty was born in Thorold, Ont., on October 10, 1877.

Using nitro-glycerine, yegmen blow open the safe in the post office and store operated by M. S. Schroeder, at Walsh, Alta., and got away with about \$5,000 in cash.

Lord Birkenhead, secretary of state for India since 1924, has resigned from the Baldwin cabinet in order to follow commercial activities in London.

A trainload of 1,500 head of cattle owned by a group of ranchers from the Peace country, reached Edmonton recently over the Edmonton, Duvrean and British Columbia Railway.

A guarantee of tonnage, such as was given by the Flin Flon interests, is essential before a branch line is built to the Sherritt-Gordon mine, in northern Manitoba, said Major Graham Bell, deputy minister of railways, in commenting on the project.

Lieut.-Col. A. L. Young, of Souris, Man., officer commanding the second reserve regiment, 12th Manitoba Dragoons, was elected president of the Canadian Cavalry Association for the incoming year at the concluding session of the 13th annual convention at St. John, N.B.

Whether the wheat pools of the west are liable to income taxation will be the subject of a big case in the exchequer court this fall. The matter has long been in dispute, and while the tax has been paid, it has been under dispute. The Saskatchewan Co-operative Company's case is to be made a test, the decision in which will apply to the other pools, says the Ottawa Citizen.

Medical Examination Of Settlers

Doctors To Be Appointed To Examine Intending Settlers At Point Of Origin

Arrangements are being made by the department of immigration to appoint approximately 500 doctors who will conduct examinations on intending settlers at the point of origin, thus eliminating any possibility of hardship in a settler presenting himself at seaboard and being turned down by the doctors at the ports, declared Hon. Robert Forke, minister of immigration, who had a conference with provincial officials on the question of immigration at Edmonton.

Japan's Traffic Problem

Traffic congestion has become so bad in the streets of Osaka, Japan, that officials are contemplating use of the old canals. It is proposed to use boats propelled by outboard motors as a part of the municipal transportation system.

PHILLIPS' MILK OF MAGNESIA

For Troubles Due to Acid Indigestion, Headaches, Stomach Aches, Nausea.

Just a tasteless dose of Phillips' Milk of Magnesia in water. That is an alkali, effective, yet harmless. It has been the standard antacid for 30 years among physicians everywhere. One spoonful will neutralize at once many times its volume in acid. It is the right way, the quick, pleasant and efficient way to kill the excess acid. The stomach becomes sweet the pain de-

Singapore's Huge Floating Dock

First Floating Dock Completed Eight Thousand Mile Journey

After a four months' voyage from England, the first portion of the huge floating dock for the new British naval base arrived at Singapore, having completed a journey of 8,000 miles by way of the Suez Canal.

The Singapore dock, when completed, will be the largest floating dry dock in the world and large enough to hold any British warship, weighs 10,000 tons and contains 20,000 tons of steel. It cost \$40,000,000.

The contract for completing the dockyard was awarded on September 27, and called for the finishing of the work by 1935. It is estimated that the naval part of the project will cost \$37,500,000.

NEW BEAUTY for YOUR CLOTHES

By Mae Martin

You can look attractive and stylish on less. Learn how to give new beauty and variety to your dresses and add individuality and charm to things around the home by the quick magic of tinting and dyeing. Perfect results are possible only with D. I. A. or D. I. E. Dyes. Each package represents the perfection of 50 years of dye-making. They never streak, spot, or run. They are real dyes, like those used when the cloth was made.

Diamond Dyes are easy to use. The "know-how" is in the dyes. Fashionable tints appear like magic right over the out-of-style or faded colors. Last on Diamond Dyes and save disappointment.

"Color Craft," my big new book of color-saving hints, will be sent you FREE. Write Mae Martin, Diamond Dyes, Windsor, Ontario.

Soundings Will Be Continued in Spring

Progress Made in Survey Work On Great Slave Lake

Soundings of Great Slave Lake as an aid to navigation will be continued as soon as spring opens, according to H. L. Leadman, engineer of the hydrographic survey branch of the federal department of "marines," who recently arrived at Edmonton from the far north. He has been in charge of operations in the vicinity of Port Resolution during the past season, assisted by W. R. Young, of Winnipeg, and a crew of four men.

Commercial fishing offers great possibilities on Great Slave Lake, says Mr. Leadman, but he thinks that mining will also be necessary to support a population of any size. He also looks forward to considerable mining activity, and states that aeroplanes carrying prospectors were often seen to pass over on the way down the Mackenzie River. With the providing of additional transportation for that country, he felt certain of a period of market expansion.

Millions Invested in Cars

Twenty-One Million Dollars Invested in Cars in Saskatchewan

Over \$71,000,000 has been invested in automobiles by the people of Saskatchewan. According to the Public Service monthly, in 1928, for the eighth month period a total of 113,694 cars was licensed by the department. In subdivisions these were: Automobiles, 99,561; Every cars, 335; trucks, 13,358.

Figuring one class of car at a valuation of \$600 each and the rest at only \$1,000 each, on the 1927 total of 104,909 motor vehicles licensed, this meant a grand total considerably in excess of \$71,000,000 invested by the people of Saskatchewan.

About 350,000 Londoners, of whom nearly 250,000 are women, are employed in hotels, restaurants and domestic service.

Sour Stomach

parts. You are happy again in five minutes. Don't depend on crude methods. Embody the best way yet evolved in all the years of searching. That is Phillips' Milk of Magnesia. It is the right way to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—say drugstore.

Many of Canada's leading social and sporting clubs use Red Rose Orange Pekoe Tea exclusively. The added strength and inimitable flavor of Red Rose Orange Pekoe makes it last longer, go farther and taste better. Packed in damp-proof aluminum.

New Horse Class For Royal

Shows Canada is Still Interested in Horse-Breeding

Interest in horse-breeding is holding its own in Canada, in spite of the competition from mechanical transport, if one may judge by new classes added to the horse section at the Royal Winter Fair this year. In addition to the regular classes for Clydesdales, Percherons, Belgians, Shires, Standard Breds, Thoroughbreds, Hackneys, French-Canadians, Half-bred Hunters or Saddle horses, and the draught horse and pony classes, a new class has been added for But-folk, the well-known British heavy breed. As good light horses suitable for hunters, saddle horses and army remounts, are in keen demand, a class has been added for mares suitable as brood mares in the production of this type of horse. This class is open to mares, four years and over, owned in Canada and vouched as being registered in the Canadian Hunter, Saddle and Light Horse Improvement Society. The mares will be judged on the basis of their qualification to produce high hunters, saddle horses and army remounts. The sections of this class are for heavy weight mares, 1,250 pounds and over; middle weight mares, 1,150 pounds and under 1,250; and lightweight mares, 1,050 pounds and under 1,150.

Winnipeg Newspaper Union

Fathom

2 cups milk.
1/2 teaspoon salt.
1 teaspoon vanilla.
2 tablespoons rice.
1 cup sugar.

Wash rice thoroughly and drain; place in a buttered pudding dish and pour in milk. Bake in a slow oven for about 1 1/2 hours, stirring occasionally; add remaining ingredients and bake from 1/2 to 1 hour without stirring.

UNUSUAL SWEET PICKLE

4 oranges.
2 cups sugar.
1 1/2 cups vinegar.
1 teaspoon cloves.
1 teaspoon black cinnamon.

Peel oranges, removing all white membrane with peel; cut into thick slices; steam until tender and translucent. Boil sugar, vinegar and spices, tied in cheesecloth, for twenty-five minutes. Add fruit, and put in fireless cooker, or simmer slowly, on back of stove, for one hour. Place in glass jar, and let stand a week or two to ripen, before using.

Practicability Of It

True truth is not a theory; it is actuality. It is a principle that is applied constantly in the practical problems of life. It brings immediate results. One dollar saved is an actual, not theoretical, step forward.

It is never too late to learn; never too late to seek knowledge. One of the finest epitaphs ever placed on a tombstone was that placed over the grave of John Richard Green, the famous historian. It said "He Died Learning."

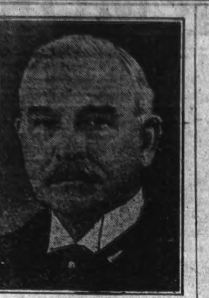

The wife: "This paper says that in parts of the East a good wife costs fifteen shillings. Disgraceful!" Her hubby: "Well, a good wife is worth fifteen shillings, isn't she?"

BABY GIRL HAD DIARRHEA WHEN CUTTING TEETH

Mrs. M. Murray, Gull Lake, Sask., writes: "Last summer, my baby girl was cutting teeth and became very weak with the effects of diarrhea. I didn't know just what to do for her as she couldn't retain anything. At last one of my neighbors said to me, 'Haven't you any...'"

DeFowler's Wild Strawberry

Why, I wouldn't be without it where there are children. My husband went to town and got a bottle, and the very first dose helped her wonderfully, and in three days she was well over the diarrhea and was running around as well as ever. Written for me by Mrs. T. Milburn Co., Limited, Toronto, Ont.

W. A. BLACK.

Director, Canadian Pacific Railway. William Allen Black, Director of the Canadian Pacific Railway, and President of the Ogilvie Flour Mills, was born in Montreal in 1862, the son of Charles R. Black, and was educated in Montreal Public Schools. He was with the traffic department of the Grand Trunk Railway from 1879 to 1882, in Montreal, and with the traffic department of the Canadian Pacific Railway in Winnipeg, from 1882 to 1884, at which latter date he joined the Ogilvie Flour Mills. In 1887 he was appointed Secretary, in 1902, General Manager of Western division, in 1910 he was elected director, and in 1911 General Manager of the entire corporation, and the following year Vice-President, and Managing Director. He has since succeeded the late Mr. C. R. Hoerner as President. He was President of the Montreal Board of Trade during 1918-19.

Recipes For This Week

(By Betty Barclay)

ECONOMICAL PUDDING

2 cups milk.
1/2 teaspoon salt.
1 teaspoon vanilla.
2 tablespoons rice.
1 cup sugar.

Wash rice thoroughly and drain; place in a buttered pudding dish and pour in milk. Bake in a slow oven for about 1 1/2 hours, stirring occasionally; add remaining ingredients and bake from 1/2 to 1 hour without stirring.

UNUSUAL SWEET PICKLE

4 oranges.

PAUL'S LAST JOURNEY TO JERUSALEM

Golden Text: "Remember the words of the Lord Jesus, that He Himself said, 'It is more blessed to give than to receive.' Acts 20:35. Lesson: Acts 20:1-21:17. 2 Corinthians 11:28. Devotional Reading: John 10:7-17.

Explanations and Comments

Paul Reviews His Ministry Among the Ephesians, Acts 20:17-21. Paul had sailed past Ephesus, for he could not take the time to stop there or elsewhere in the province of Asia, as he was very desirous of being in Jerusalem for the day of Pentecost. But when he reached Miletus he sent a messenger to the elders (or presbyters, Revised Version) at Ephesus, bidding them come to Miletus to say farewell. In the church he founded Paul had established the offices of deacons and elders after the model of the Jewish synagogue. Paul speaks sometimes of elders and sometimes of bishops using the latter term, which means literally overseers, or superintendents, in churches where there was a large Gentile element.

"You yourselves know, from the first day that I set foot in Asia, after what manner I was with you all the time" (Acts 20:18). Paul began his address to the Ephesian elders upon their arrival. The first day that Paul set foot in Asia is recorded in Acts 16:6, 7, but his first preaching there was later, Acts 18:19. He came to Ephesus again on his last missionary journey, Acts 19. "The manner of his life" he proceeds to tell in the next three verses.

Paul first reminded them how faithfully and how humbly he had served the Lord while his heart was filled with anxiety for them and his own life was threatened by the plots of the Jews (see Acts 19:32; 2 Cor. 1:8-10); and how he had told them all things profitable for them to know, and had taught them in public and in private the essentials of religion, repentance toward God and faith toward Christ. Fearing of giving offence to the Jews and therefore of endangering his own life had not prevented him from preaching a crucified Christ and the gospel for Gentiles as well as for Jews.

"Repentance toward God and faith toward our Lord Jesus Christ" there is no other way but by repentance and faith. First, realize your sins; second, confess to Jesus Christ; and third, live as you think you ought to live.

Nothing Else But

A well-known comedian is very proud of his three beautiful and talented daughters.

One day an acquaintance and admirer of the comedian was talking to him about the family.

"A funny thing," he remarked, "you have nothing but those three girls." The comedian looked at his friend in astonishment.

"Nothing but girls!" he echoed. "Why, my dear old chap, I wish you were right. As it is, we've nothing but boys all over the place."

State Fore-runner Of Storm

There is a relationship between static and storms. . . . There are storms, it is true, that are accompanied by little or no static. There are other storms accompanied by static, which are nevertheless difficult to locate because the static appears to come from no definite direction. But as a rule static accompanies a storm and gives in advance of the arrival of the storm definite indication of the direction of approach.

A Remarkable Magnet

Steel Alloy Raises Thirty Times Its Own Weight

A new steel alloy possessing remarkable powers of magnetization has been discovered by a research engineer. It is cobalt steel alloyed with tungsten, and in the form of a horseshoe magnet it is claimed that it will raise a bar thirty times its own weight. Spectators at a recent demonstration were amazed to see a bar of alloy floating in the air. The explanation lay in a similar bar placed beneath the floating one. Magnetized with the poles opposite, the two bars were kept apart by the magnetic repulsion between them and as the repulsion was greater than the force of gravity, the upper bar floated.

CHAPTER IV.—Continued.

In appearance the champion very much resembled an ape. His bullet-head was close cropped. The small piglike eyes were deep-set under overhanging, beetling brows, and the nose was flat like a negro's. His lips were thick, with a repulsive twist that gave his face a sinister look. His massive jaw was purposely left unshaved to rasp the tender skin of his opponent's shoulders in the clinches. His enormous barrel-shaped chest was covered with a thick growth of hair. His shoulders were broad and his disproportionately long arms, heavily muscled, terminated in two thick ham-like hands. He gazed confidently at Donald's corner.

A pasteboard box containing the gloves was tossed to the centre of the ring. There was a stir as the announcer pushed his way through the ropes. Andy crossed the ring to examine the champion's hands for tape and to test thoroughly the new gloves for any trace of sewing in shot or iron that would cause the eyes to smart. One of Garrieta's seconds was making a similar examination in Donald's corner.

A big man in a wide-brimmed hat, with a mackinaw coat over his arm, came walking down the steps of the arena. The look of astonishment on his face gradually gave place to one of joy. He ran to the ring-side.

"Donald!" he shouted joyfully, as he sprang through the ropes. With a thrill of pleasure Donald held out his hand to Jack Gillis. The big man's face was beaming. "Just got in," he said. "Bin lookin' all over town for you! I come to the fight and—loky mackerel—here you are one of the fighters!"

Andy noted the glad look in Donald's eyes and he spoke sharply to Donald's seconds, who were for ordering the boisterous visitor, out of the ring. The word "psychology" was foreign to Andy, but he knew that Donald's mind had for a moment drifted away from the fight. Donald was surprised to see Douglas greet Gillis warmly as the big man left the ring.

"I have two good friends in the audience, anyway," whispered Donald to himself.

Andy leaned over him, talking in a low voice, giving him comfort and

advice. "E'll try right along, Donnie, to get your goat by cursing and using vile language, but don't listen 'im, and don't lose your temper. 'E fights with 'is chin tucked in the hollow of 'is left shoulder and 'is neck muscles rigid. It's mighty 'ard to land on 'is jaw with a right. Now the first round," Andy went on, "you just jab 'im light, with your left; don't hit 'im, just a good snappy punch. 'E'll think you 'ave no sting in it, and the next round 'e'll get careless and let you 'it 'im so to get a punch. Of course, if you see a good opening, let fly with all you 'ave, but 'e won't open up until 'e tries you out a bit. Watch the dirty blighter in the clinches; 'ell foul you if 'e gets a chance. Another thing; this is to be twenty rounds, so tye your time. Now is everything clear to you, Donnie?"

"Yes, Andy."

Andy patted Donald's bare shoulder affectionately.

The contestants stood, in their corners as they were introduced. The referee beckoned them to the centre of the ring for instructions. As Donald slipped the enveloping bathrobe from his shoulders and stepped forward, a murmur of admiration swelled from the crowd. His lean legs and broad shoulders showed to advantage in the bright light. The long, flowing muscles rippled under his skin when he moved, like those of a panther. Loud applause came from all over the arena. Garrieta, thinking the duck was for himself, turned and ducked his head with a motion that was intended for a bow.

A rough voice near the top shouted: "Aw! that wasn't for you, boy, big stiff!"

The judge and the dentist turned and looked at each other. The eyes of the latter seemed to say, "I told you so." The judge smiled and nodded.

A fat man, who could not have been more than thirty-five years of age, yet with rolls of fat at his waist-line, a bulbous nose and florid face, he ejaculated, "That man is perfect." There was a look of admiration and envy in his red-rimmed eyes. Thus do men admire the strong, well-kept body of the athlete, even though their own physical skill has degenerated to mere paste.

"Two to one," a Garrieta wide inside of ten rounds," shouted a voice. Douglas covered the bet at once.

"Now, then," instructed the referee briskly, "this is to be twenty rounds. You are to fight clean breaks. You can hit with one arm free, but you cannot hold with one and hit with the other. When I say 'Break' I want you to break at once and step back. Do you understand fully? Good! To your corners."

Donald glanced at his friends, who sat with their eyes upon him. He felt Andy's hand upon him gently stroking his arm, yet he could not suppress the trembling in his limbs.

"Everything's all right, Donnie," whispered Andy softly.

The going ring.

Garrieta assumed the crouch Andy had predicted, his chin resting in the hollow of his shoulder, his eyes seeming to retreat into his skull under the overhanging brows. This was the champion's famous "fighting face."

"Pretty boy, ain't yer?" he scoffed. "I'm goin' to knock dose pretty teeth down yer throat, you—" he cursed.

Donald snapped a light left to the ugly face and danced out of range. The champion's thick lips parted in a sardonic grin. "My, mamma's nice boy has a terrible punch!" he derided.

Donald continued his dazzling footwork, keeping the champion in pursuit and contending himself with occasional left-hand jabs that kept his opponent's head rocking. He shot glances at intervals to his corner for instructions from Andy, who nodded his head in approval of his tactics.

The round finished in the challenger's favour by a wide margin on points. The champion had not landed a single effective blow during the round.

The action of the first round caused Donald to forget his nervousness. Andy crowded between his knees and gently massaged his body, all the while speaking words of commendation and counsel.

"Now that you find that you can reach 'im easily with your left, watch me for signals. If I see that 'e's openin' up, I'll give you the sign to shoot your left with all you 'ave. If he swings again with 'is left, try for 'is bread basket. You understand me, Donnie?"

"Easiest thing I've picked yet," chuckled the champion as he came to his corner.

"He may be stalling," cautioned his evil-faced manager.

"Huh!" grunted the champion. "I can take all he has in dat left and never feel it. I'm goin' to open up on him de last part of de next round."

The going rang for the second round.

Her Color Went Black. She Was Frightened To Death.

Mrs. Waite, New Brighton, writes: "That deadly indigestion and gastritis, caused by constipation made my color go black. I was frightened to death, and I feel your laxative saved my life. I take them every night now for prevention, and do not fear an attack of constipation poisoning any more."

CARTER'S LITTLE LIVER PILLS
All Druggists—25c and 75c red pills.

Donald caught a glimpse of Purcell's face as he crouched in the opposite corner. Such a look of vicious hate shot from his one gleaming eye that Donald shivered.

The rough element began to jeer at Donald for his running tactics. Some fans feel that they are being cheated out of the price of admission unless they can witness the spectacle of two boxers slugfing toe to toe until one goes down. Science counts for nothing with this small minority.

"Whadda ya think this is, a marathon?" they shouted.

"Powder-puff punch!" derided another.

Garrieta suddenly tore in, letting loose a terrific right that would have stopped the bout right then if it had landed. From a clinch Donald looked to his corner. Andy went through the pantomime of shooting a straight left. Donald nodded.

"Powder-puff punch!" again shouted the disgruntled fan.

"Did ya hear that?" hissed Garrieta, twisting his mouth into an arabesque. "You can't hit hard enough to break an egg. I'm goin' to fix dose teeth for you now." He leered hatefully as he tore after Donald, discharging the belittled left.

Donald stopped abruptly in his flight and shot a lightning left across to his pursuer's jaw. The champion saw it coming, but too late to block it. He threw his body into reverse, robbing the blow of a great deal of its force; yet enough was left to send him reeling back to the ropes, his head whirling and his knees wobbly. With a roar the spectators came to their feet as one man. The going saved Garrieta.

The crowd gave Donald a deafening ovation as he walked to his corner. He looked for his friends and saw Douglas and Gillis locked in an embrace and dancing merrily in the narrow aisle.

(To Be Continued.)

A LAUGHING BABY IS A GREAT JOY

What can give more joy in the home than a laughing, happy baby? The well child makes everyone happy with his tuneful gurgle and bright, laughing eyes. It is only the sickly baby who is not a laughing baby, for it is the little one's nature to be happy when well.

Mother, if your baby is cross, if he cries a great deal and no amount of attention seems to make him happy, give him a dose of Baby's Own Tablets and he will soon be well and ready to radiate that happiness through the home again.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels and sweeten the stomach and thus banish constipation and indigestion; break up colds and simple fevers and correct those troubles which accompany the cutting of teeth and in doing those things—and doing them well—they make baby happy and keep him happy.

The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"And how do you get on with your wife?"

"I've a splendid working arrangement with her. In the forenoon she does what she wants, and in the afternoon I do what she wants."

The Middle Course

During his visit to a village school a diocesan inspector of religious knowledge put this question to a class of little girls:

"If all the good people were white and all the bad people black, what color would you be?"

Some answered "White" and others "Black." But little Mary replied: "Please, sir, I would be streaky!"

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holroyd's Corn Remover.

Mistress: "I see that another soldier has called for you, Mary. I thought you had only one sweetheart."

Cook: "Oh, no, mum; two. You see, one's regular and the other's a reserve."

Minaud's Liniment for sprains.

"Did you hear about the defacement of Skinner's tombstone?"

"No, what was it?"

"Someone added the word 'friends' to the eulogy?"

"What was the epitaph?"

"He did his best."

Teeth and Health

Issued By The Canadian Dental Hygiene Council and Published By The Macmillan Company of Canada

TOOTH DECAY

You do not allow your child too many sweets lest they spoil his teeth, and, wisely, you did not let him know their taste too early. But where the harm?

Now, as you have read, no doubt, so called tooth decay is a disease that is incited by bacteria. These micro-organisms have the power of setting up fermentative processes in left-over carbohydrate matter in the mouth, producing acids which attack the tooth substance to dissolve it; in this manner, these organisms gain access through the hard enamel covering.

You perhaps did not suspect the presence of bacteria in your mouth, did you? Yet, a noted authority states that more than a hundred different species could undoubtedly be isolated from a single mouth at one time or another.

Now, of course it is neither practical nor possible to cut off the carbohydrate food supply, nor to rid the mouth of bacteria for any length of time.

However, nature herself is not wholly defenseless against the situation. The acid which is set up is taken up by the saliva and dissipated before it can do injury—excepting when it is so undiluted as to be in deep pits or fissures, or beneath food particles that adhere to the tooth when proper mouth toilet is not observed.

But you must do your part by avoiding excessive use of carbohydrate foods such as sugars, starches and allied substances, for the use of too much of these is to create a condition that can but invite disaster—especially when proper mouth toilet is not the daily rule.

First Parachute Was Used By Frenchman

Successful Drop Made From Considerable Height In 1802

Unquestionably the parachute, nearly in its present shape, is as old as aerostatics. There is supposed to be a picture of one in Venice dating from 1617, and there is a narrative of a French ambassador to Siam in the 17th century, to the effect that a mountebank at the royal court climbed to the top of a tall bamboo and jumped off with two umbrellas to support him. Very likely this is true. Shortly after the Montgolfier ascents, the French aeronaut Blanchard seems to have made the first parachute experiment in connection with a balloon, but instead of trusting himself to the apparatus he attached his dog.

Presumably because the parachute had been designed for the weight of a man and was thus much too large for the dog, instead of dropping when released, it went up considerably higher than the balloon, then at about 6,000 feet. After a time it came back down near the balloon and the dog got a chance to bark a greeting to Blanchard. At least, that's the story that comes to us. Finally Blanchard reached the ground by the gradual descent of his balloon and a little later the dog landed unhurt.

This successful experiment doubtless greatly stimulated the inventors for presently various forms of parachutes were suggested, some of which were actually constructed, and among them some fearful and wonderful arrangements. One of these promptly folded up when released and resulted in the death of its inventor. After this it appears the designers returned to the original umbrella form.

The first successful drop from a balloon, at any considerable height appears to be that of the Frenchman, Garnerin, who staged a performance at Paris in 1802. Garnerin cut himself loose at 1,200 feet and luckily managed to land safe and sound.

The Middle Course

During his visit to a village school a diocesan inspector of religious knowledge put this question to a class of little girls:

"If all the good people were white and all the bad people black, what color would you be?"

Some answered "White" and others "Black." But little Mary replied: "Please, sir, I would be streaky!"

No need to suffer with corns, or to run the risk of paring them. Remove them surely and painlessly with Holroyd's Corn Remover.

Mistress: "I see that another soldier has called for you, Mary. I thought you had only one sweetheart."

Cook: "Oh, no, mum; two. You see, one's regular and the other's a reserve."

Minaud's Liniment for sprains.

"Did you hear about the defacement of Skinner's tombstone?"

"No, what was it?"

"Someone added the word 'friends' to the eulogy?"

"What was the epitaph?"

"He did his best."

Trying To Eliminate.

Hazards Of Submarines

U.S. Navy Will Make Test Of Rescue Apparatus

Stirred by undersea craft disasters that have taken the lives of scores of American officers and men, the navy is making strenuous efforts to eliminate the hazards of submarines by devising and perfecting rescue apparatus.

Many experiments are being made and plans carried out for exhaustive tests to learn what happens when a submarine is stricken below surface. The hulls of the sunken submarine accident wherein the craft was totally disabled and flooded while under water, and none has been able to tell just what occurs under those conditions.

In addition to laboratory experiments, the hulls of the submarine S-4, which took 40 men to their death after she was rammed by the Coast Guard destroyer, Paulding, off Provincetown, Mass., December 17, 1927 will be used in rigorous tests off Cape Charles, Va., in October. These tests are to be conducted by Lieut. C. B. Momsen, submarine expert and diver.

Attempts will be made to learn conditions that exist during the wrecking of undersea craft and devise methods of contracting and preventing them. Naval divers will be placed beside the hull which will be sunk and flooded. They will then escape through hatches and come to the surface by using the navy's new breathing device, "the lung," and other rescue apparatus developed during the last few months.

The singing Mennon was a statue in Egypt which gave out most odd notes when the sun rose in the morning and as it set at night. After the statue was tipped over it no longer sang.

Excited Person (complaining to postmaster): "And if I don't get better service, I shall give my postal business to someone else."

Headache? Relieve with Minaud's Liniment!

"Have you anything to say, prisoner, before sentence is passed upon you?"

"No, your honor, except that it takes very little to please me."

Canadian National Carbon Co., Limited

Vancouver TORONTO Montreal

Owning Eveready Battery Station KCNC, Toronto, 3505

There's been a revolution in the science of battery building—Eveready has found a way to give you more battery for your money than you ever bought before!

The new Layerbilt principle can be understood by anyone. It simply gives you more current-making elements by packing flat cells like crackers in a box, instead of using many round cells with waste space between.

You actually get the equivalent of a much bigger battery and, of course, it takes much longer to use it up. That's why you should buy Eveready Layerbilt and save money. Now selling at new low prices. Ask your dealer.

BURNS & CO. LIMITED

Blaimore 46 Bellevue 12a Hillcrest 61a Coleman 53

Mr. John Crawford, superintendent with the McGillivray Creek Coal & Coke Company at Coleman, has been offered the position of manager at Saunders Ridge, left vacant through the resignation of Mr. Miller. Mr. Crawford, since taking up residence at Coleman, has been instrumental in the formation of one or more orchestras and his departure at this time would be keenly regretted. We understand that representations have been made to him to remain in Coleman.

At a meeting held recently at the Greenhill hotel to discuss Rotary, the question was asked: "How was surplus membership disposed of?" In reply, Mr. Freeze said: "That's why I have suggested Mr. Ferguson, undertaker, a member of your new club."

The fourth annual banquet of the Bellevue Fish and Game Protective Association will be held at the Bellevue Inn on Thursday night next at 8 o'clock.

HILLCREST HAPPENINGS

A case of scarlet fever has broken out in town and is under close quarantine.

Little Nancy Mansell, who has been very ill with pneumonia, is steadily improving.

Remember: United church Rally Day, next Sunday at 3 p.m. at Cole's theatre. A splendid pageant, readings, etc. Offering will help to reduce the missionary allocation. You are cordially invited.

Messrs. Mackie and Drinnan, managing director and consulting engineer, respectively, of the Hillcrest Collieries Limited, arrived at Hillcrest on Thursday last, the former from Montreal, the latter from Edmonton.

The Ladies' Aid of the United church are holding their annual bazaar in the church on Saturday, November 10th, beginning at 2 p.m. A splendid collection of sewing, novelties, ornaments, etc., will be on display. Tea will be served in connection with the sale. Donations in the shape of sewing, home cooking, etc., will be gratefully received. Keep this date in mind.

COWLEY HAPPENINGS

Mr. and Mrs. Robert Littlejohn have returned, after spending several months on a ranch near Waterton Park.

Miss Enid Cole, of Bellevue, has organized a class in Cowley, where she will teach dancing, reciting and singing. Miss Cole received the most of her training in Chicago, we understand.

Major G. A. B. Buchanan, eldest son of Mr. and Mrs. G. W. Buchanan, is stopping over for a few days at Glenburn Ranch, his old home, enroute, to visit his parents. Major Buchanan served in the Great War, was taken prisoner, exchanged and interned in Holland, where he married and has since made his home.

Local and General Items

Mr. J. H. Eastland, claims agent of the C.P.R., was in town from Winnipeg on Monday.

"The Bazaar Without a Par."—St. Anne's. At the opera house on December the 1st.

Commissioner W. C. Bryan, A.P.P., of Edmonton, was a brief visitor to the Blaimore barracks on Saturday last.

A general meeting of the Blaimore Curling Club will be held at the Greenhill hotel tonight at 8 o'clock.

Good goods, fancy goods; lots of goods for all your "wounds," at the opera house, December 1st. St. Anne's Bazaar.

Remember the Sale of Work and Tea to be held in the Lodge Hall on Saturday, from 3 to 5 p.m. Come out and bring your friends.

Roses are sometimes red,
Violets are always blue.
St. Anne's Bazaar is coming,
And I am coming, too.

J. F. Steele, district editor for the Lethbridge Herald, was in town the last of the week, accompanied by Tom Whittingham, until lately of the Kimberley Press staff. Mr. Whittingham has accepted the position of travelling representative of The Herald.

BLAIRMORE UNITED CHURCH
Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services for Sunday, October 28th, the pastor in charge.

SENIOR SCHOOL at 11 a.m.

JUNIOR SCHOOL at 2.30 p.m.

EVENING WORSHIP at 7.30 p.m.

"Bunyan's Pilgrim's Progress!" "The Wicket Gate."

CHURCH NIGHT PRAYER SERVICE, Wednesday at 8 p.m.—The subject will be "The Parables of Jesus": (a) parable of the leaven, L. 13: 20-21; (b) parable of the Hidden Treasure, Mth. 13: 44; (c) parable of the Pearl of Great Price, Mth. 13: 45-46.

BOYS' AND GIRLS' WORK—We have organized the Boys' and Girls' Work on a slightly different footing this year. In addition to the regular group work, we are giving instructions in various handicrafts. Two such courses are now ready. A junior course in "Manual Training" This is being given to the Explorer Boys' Group, ages 9 to 12. On Tuesday, October 29, at 8 p.m., a short course of nine or ten lectures in "Elementary Electricity" will begin. This course is a practical one and will have special attention to "Automotive Electricity." Entrance fee is \$1.00 and is open to everyone. Other courses are being prepared and will be announced later. This work is being done under the name "Institute of Manual Training and Home Art," and is housed in the old mine office. Considerable expense has been necessary to get such a work under way and contributions will be very gratefully received by the principal, Rev. J. W. Smith.

ST. LUKE'S CHURCH, BLAIRMORE

Read This! If You Have Varicose Veins

If you or any relative or friend are worried or suffer because of varicose veins, or bunions, the best advice that anyone in this world can give is to get a prescription that literally hundreds of people all over the country are using with complete satisfaction.

Simply ask your druggist for an original two-ounce bottle of Emerald Oil and apply night and morning to the swollen, enlarged veins, rubbing gently upward and towards the heart as the blood in the veins flows that way. Soon you will notice that they are growing smaller and the treatment should be continued until the veins are of normal size. Emerald Oil is a powerful, yet harmless remedy and results are guaranteed by all good druggists.

MOONE'S
EMERALD OIL

For Stiff Joints

Pharmacists say that when all other so-called remedies fail Joint-Ease will succeed.

It's for joint ailments only—that is why you are advised to use it for sore, painful, inflamed, rheumatic joints.

Joint-Ease limbers up the joints— is clean and stainless and quick results are assured—Sixty cents a tube at druggists everywhere.

Mr. F. J. Dopkin, local district representative of the Manitoba Bridge & Iron Works, has returned from a several weeks trip through British Columbia.

Attractions on the right of them. Attractions on the left of them. Everybody happy, not like the six hundred! St. Anne's Bazaar, December 1st.

Crowview Rebekah Lodge

No. 66, I.O.O.F.

Meets First and Third Thursdays at 8 p.m., in the Oddfellows' Hall. Officers for the ensuing term: Sis J. Patterson, N.G.; Sis. Howe, V.G.; Sis. K. Turner, Rec. Sec.; Sis. Morency, Fin. Sec.; Sis. Walker, Treas.

Livingstone Lodge No. 22, KNIGHTS OF PYTHIAS

Meets in the Castle Hall on the Second and Fourth Fridays of the month at 8 p.m. Visitors are always welcome. Officers: C.C. Joseph Wolstenholme; K. of R. & S. R. Sessler

BLAIRMORE LODGE NO. 15, B. P. O. ELKS

Meets Second and Fourth Tuesdays at 8 p.m., in the Elk Hall. Visitors made welcome. A. E. Ferguson, Exalted Ruler; J. R. McLeod, Secretary.

Mrs. H. Gilbeau stopped off here for a few days, returning from Trail to Calgary.

Positive MONEY BACK Guarantee in each bag.

Robin Hood FLOUR

Makes bread whiter and lighter than you get with other flours

The Order of the Eastern Star is holding a Sale of Work and Home Cooking in the Lodge Hall on Wednesday, December 5th, from 3 to 6 p.m., followed by a Whist Drive and Social in the evening at 8 o'clock. Everybody welcome; come and bring your friends.

PYTHIAN SISTERS BAZAAR

Greenhill Temple No. 10, Pythian Sisters, will hold their annual bazaar and sale of home cooking in the Lodge Hall on Wednesday, November 21st. Please keep this date in mind.

Local and General Items

The B.C. government has decided to do away with stool pigeons.

E. D. Battum is making the quarterly audit of the town books this week.

No reports have been received from Dave Oliver, whose Graf-Chevrolet sailed from Blairmore last week.

The American hotel at Macleod has been acquired by Messrs. Swinarton and Grier, owners of the Queen's.

Mrs. T. R. Ross is lying in a serious condition in the Drumheller hospital, suffering from double pneumonia.

A very prominent member of the Knights of Pythias refused to address a meeting in the new lodge hall at Hillcrest last week, because instruments for the registration of hot air had been installed.

A scientist says women are going to become the ruling sex. That's the worst of these scientists. They go to sleep for so long between their discoveries, that when they awake and speak, it's all over long ago!

The contract has been let by the public works department for the gravelevelling of that piece of highway between Crows' Nest Lake and Crows' Nest station, about three miles. Western Construction Co. were the successful tenderers.

John Crawford has resigned the position of superintendent at McGillivray Creek Coal & Coke Co.'s mines at Coleman and left on Monday night for Saunders Creek, where he will manage the Saunders Ridge Collieries. Mr. Crawford was presented with a beautiful dressing case by the officials of the McGillivray Co.

Roddie McDonald and Jack McIsaac were arrested at Drumheller last week, alleged to have stolen the sum of \$448 from a newly formed companion named Kias Holmberg. McDonald is well known in boxing circles. Holmberg was so badly beaten up that he is since a patient in hospital.

Sunday last, October the 21st, was the anniversary of the great naval battle of Trafalgar, when Lord Nelson, admiral of the British fleet, issued his famous order: "England expects that every man this day will do his duty." In this engagement, the British fleet smashed the combined French and Spanish fleets, but the price paid for victory was costly.

The Grading of Wheat

The heavy frosts which descended upon Western Canada during the third week of August, had a most disastrous effect upon a large portion of the wheat crop of the prairie provinces, with a resultant lowering in grades which, in the aggregate, means a loss of many millions of dollars to the farmer-producers of the west. Just how great the loss is will probably never be accurately known but thousands of individual farmers will, more or less correctly, estimate what it means to them. Volume of production remains, the greatest in the history of the country, but grades, and consequently prices, are seriously affected.

Under the circumstances it is but natural that an outcry is raised against the whole system of grading, and some very rash statements are indulged in. The farmer who gets Number Three feels he ought to have received Number Two, and the man who is given Number Four contends he ought to have had Number Three, and so on down the line. This is but natural, but the result is that elevator operators, whether in the Pool or line elevators, are charged with taking advantage of the situation and grading too low. Governments, both federal and provincial, are held responsible for the system of grading in vogue, although, as a matter of fact, provincial governments have nothing to do with grading, which, as a matter of trade and commerce falls solely within the jurisdiction of the Dominion. If there was any truth in the charge that the Liberal Government, in Saskatchewan, is responsible for low grading this year, then the former Governments in Manitoba and Alberta are equally responsible.

The truth of the matter is, of course, that neither Liberal, Conservative, Progressive nor United Farmer Governments are responsible. It may be that the present system of grading requires revision but even that cannot be determined offhand. Canadian wheat occupies an enviable reputation in the markets of the world, and because of that reputation commands a good price. That reputation is based on the quality of our wheat, and that quality is guaranteed through our system of uniform Government inspection and grading.

It may well be that in a year like the present, a relaxation in grading would result in a larger proportion of our wheat being placed in higher grades, and better prices received by the growers. On the other hand, a lowering in the standards might very easily result in a general lowering of all prices, so that the final result would be much the same.

But assuming that this did not happen this year, the undoubted effect would be injurious to the reputation of Canadian wheat and any gain derived this year would be more than offset in other years because of the poorer reputation for all our wheat that would result. The reputation of Canada's wheat abroad is the biggest asset we have in the British and European markets, and it must be retained at all hazards. And to tamper with grading solely in order to meet climatic conditions in any one year would be fatal to that reputation.

There is this, however, to be considered. Does frost, which mars the appearance of the wheat kernels, and results in lower grading, actually impair the milling qualities of that wheat, and the baking properties of the flour made from such wheat? In other words, does frost affect the real quality of the wheat to the extent that our present standards of grading would indicate? If it does not, then it would seem that our grading need not be quite so drastic without affecting the established reputation of our wheat.

This, however, is a question that can only be determined through study, research and experimentation. It cannot be decided in a day or two, or settled by legislative enactment. The Dominion Government is fully alive to the importance of this question, and the Government Research Laboratory, working in conjunction and full co-operation with all Western universities, is engaged in the task of ascertaining the actual facts and the full truth. In this important work, the three provincial governments, the Wheat Pools, and the United Farmer organizations are all assisting.

Pending the result of such searching investigations, it is a mistake and unpatriotic for anybody to seek to inflame public opinion out of an unfortunate condition resulting from the vagaries of the weather which no man, or body of men, can direct or control. Rather should every man and every organization having the best interests of Canada at heart do what lies in "their power to assist in this great work to the end that all may benefit."

Want Tariff On Berries

B.C. Fruit Growers Want Seasonal Tariff On Importation From U.S.

A request for a reasonable tariff from May 15 until July 31, yearly, to apply on importations of United States strawberries to prairie points in advance of the arrival of British Columbia fruit was made by a delegation of Spanish fruit growers in representations made to Hon. W. D. Euler, minister of national revenue, and Hon. Dr. J. H. King, minister

of health, in a conference at Victoria. Mr. Euler asked if it was the intention of the delegation to ask for a high tariff that would prohibit all buying.

They explained that the growers wished a reasonable tariff, not necessarily a high one, but one that would apply between the period of from May 15 to July 31.

The request was one that would require careful consideration and special legislation to bring into effect commented the minister, who promised to lay the matter before Hon. J. A. Robb, federal minister of finance, on his return to Ottawa.

For Women Senators

Reported That Government Will Facilitate Further Steps To Be Taken

The Ottawa Citizen says: "Those organizations which want the right of women to sit in the Senate affirmed, are to be facilitated in the further steps they propose to take. The facility will probably take the form of the Government paying the costs of both sides in an appeal to the privy council from a judgment of the supreme court of Canada declaring women ineligible for appointment to the Senate under the B.N.A. Act as it now stands."

Mistress: "And what's your baby's name, baby?"

Colored Maid: "Hallelu! We named him from the Bible."

Mistress: "Hallelu? I never heard that before!"

Maid: "Oh, yes. Ain't yo' never read 'Hallelu be thy name'?"

Nansen Believes Arctic Route Most Favorable

A Zeppelin flight between Europe and the U.S. by way of the Arctic regions in order to determine the practicability of that route is now being actively prepared by a committee under the chairmanship of Fridtjof Nansen, noted polar explorer. It is believed that weather conditions will be more favorable in the Arctic than over the regular North Atlantic course.

The Zeppelin will be commanded by Captain Walter Bruns, secretary of the Society of Arctic Research. It is understood that the coming aeronautic convention in Berlin will fix the date for the Arctic flight, which probably will be next May or June.

Three Russian scientists, Prof. Wiesse, meteorologist, Prof. Schmidt, biologist and Prof. Isachenko, microbiologist were in Koenigsberg recently, en route to Berlin, and discussed plans for the expedition.

WEAK AND NERVOUS

A Condition Due To Watery Blood — Easily Corrected Through the Use Of Dr. Williams' Pink Pills.

This, pale girls lack the power of resistance to disease that rich, red blood gives. Nervous breakdown is the result of this blood. So is indigestion, headaches, backaches and many other troubles. Girls suffering from this, impure blood need just the help Dr. Williams' Pink Pills can give. For many years Dr. Williams' Pink Pills have been a world-famous blood-builder and nerve restorer. They actually make new, rich, red blood which imparts new vigor and life to all the organs of the body. Their first effect is usually shown by an improved appetite; then the spirits revive and resiliency at night gives way to health restoring sleep. For sufferers from anaemia, nervousness, general weakness or physical exhaustion Dr. Williams' Pink Pills are a restorative of the utmost value. This is proved by the experience of Miss Sarah A. McEachern, R.R. No. 3, Brule, N.S., who says: "About three years ago I became very weak and nervous. I had pains in my side and back. I also had frequent pains in the back of my head and neck. I was very pale and very weak. I had attacks of nervous irritability, and at times I was so nervous that life seemed almost insupportable. I had friends who said I was a nervous wreck. I began taking these pills and used them for about two months with the result that there was such an improvement in my condition. I had friends would ask me what I was taking, and I was only too glad to tell them it was Dr. Williams' Pink Pills. I am now enjoying good health and am glad to give this statement for the benefit of my fellow sufferers."

You can get these pills from any medicine dealer or by mail. Dr. Williams' Medicine Co., Brockville, Ont.

End Season's Work

Freighters From Hudson Bay Return To Nova Scotia Ports

All freighters being used in Government work on Hudson Bay, have left for Nova Scotia ports for the winter months, according to wireless dispatches received at the Department of Marine. The tug Dainty and the steamers Canadian Voyager and Odie, left Port Churchill recently. The vessels have been used in carrying material to be used in the construction of the harbor.

Ready-made Medicine—You need no physician for ordinary ills when you have at hand a bottle of Dr. Thomas' Electric Oil. For coughs, colds, sore throat, bronchial troubles, it is invaluable; for scalds, burns, bruises, sprains it is unsurpassed. It is a safe, reliable and sure remedy for cuts, sores and the like. It is an unquestionable healer. It needs no testimonial other than the use, and that will satisfy anyone as to its effectiveness.

"What are you doing with that red lantern?" "Oh, I just found it. Some careless fellow left it beside a hole in the road."

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

When Noah sailed the waters blue He had his troubles, same as you. For forty days he drove the Ark. Before he found a place to park.

Proves Airship Practicable

Zeppelin's Flight Shows It Superior To Plane For Ocean Crossing

Says Expert

Captain Walter Bruns, noted aviation and Zeppelin expert, is of the opinion that the voyage of the Graf Zeppelin from Germany to the United States, has conclusively demonstrated the practicability of the airship for trans-ocean communication.

"Such a collection of bad weather as the Graf Zeppelin encountered," he said, "of course is not an everyday occurrence. In normal weather, the Zeppelin should span the ocean easily."

"From an expert viewpoint, it would be an interesting thing to have the worst weather imaginable, for it proved that the airship can do what the aeroplane cannot possibly do, go a long distance out of the way of a storm; or, if caught in it, merely drift until it blows over. The Graf Zeppelin was delayed in its arrival longer than expected. But what of it? Why apply different standards to an airship than to an ocean vessel. The big greyhounds recently have been from 33 to 36 hours late. Yet nobody has found fault with them."

"No airplane can afford to fly great distances to evade storms, because its fuel supply is too limited; also, it cannot have conveniences for weather observations which the gondola of an airship affords."

Asked whether he thought Dr. Ekener had possibly yielded to pressure and started at an inadvisable time, Captain Bruns replied: "I don't think so; on the contrary, Dr. Ekener undoubtedly said to himself, 'If I can only get the Zeppelin out of the hangar, I can fly in any kind of weather.'"

A Remarkable Invention

Metaphone Emits Noise When Detector Comes Near Metal

Metals are made to talk by a new invention, called the "Metaphone," which is being perfected by its inventor, Mr. W. S. Clayton. This remarkable new instrument, which resembles a wireless receiving set, emits loud noises when the "detector," which is connected with it, comes near any metal.

The possible uses to which the "Metaphone" may be put, says the London Sunday News, are almost innumerable. It can be used to detect sunken submarines, ships, and even treasure at the bottom of the sea, and with a small set it is possible to detect the presence of a knife, revolver, bunch of keys or cigarette case in a person's pocket. Although the invention is by no means fully developed, Mr. Clayton has already conducted some satisfactory experiments at sea off the coast of British Columbia. The instrument, carried on board a salvage steamer, detected the presence of some iron wreckage well below the surface of the water. Either earphones or a loud speaker can be used in connection with the invention.

As Oil Of Merit—Dr. Thomas' Electric Oil is a bundle of medicinal substances thrown together and pushed by advertising, but the healing qualities of certain oils as applied to the human body. It is a rare combination and we are not public favor from the first. A trial of it will carry conviction to those who doubt its power to repair and heal.

Wonderful Future For Canada

Lord Peel Sees Great Things In Store For This Country

"We see developing here a vigorous and varied civilization and we see a people growing with a clearly marked individuality of their own," said Lord Peel, grandson of England's Robert Peel and leader of the Empire Parliamentary Party, just before his departure for the Maritime Provinces. "We have fallen in love with this country and regret to leave these fertile plains and the bright stimulating air. We all foresee a wonderful future, even beyond the visions of the first pioneers. We believe the country is moving along right lines and it is only a matter of time until the ambitions of the most far-seeing are accomplished."

Minard's Liniment for aching joints.

Liddergh Going To Turkey

Mrs. Evangeline Liddergh, according to a dispatch sent by the Constantinople correspondent of the Egyptian Daily newspaper Ahram, has said that her famous son, Col. Charles A. Liddergh, intends to visit her shortly in Turkey. The two will make a aerial journey to Syria and Jerusalem, to visit the holy places of Christianity.

Immigration for Canada from the United States this year is 25 per cent. greater than a year ago.

Freedom From Insect Pests

Loss From Insects Has Been Very Light In Western Provinces

General freedom from insect pests in the western provinces is reported by the Dominion entomological branch. Grasshoppers, which in former years worked havoc in the crops have been found scarce this year. The sugar beet crop in southern Alberta is stated to have suffered to some extent from the red-backed cutworm but the control campaign instituted by the department has localized the infestation. In the same province the alfalfa crop has been attacked by the Bertha army worm. Dusting of the crop is expected to eradicate the pest. Losses from insects are generally small, officials of the branch indicate.

Minard's Liniment—Popular for 60 years.

Ludendorff Is Worried

General Erle von Ludendorff, former quartermaster-general of the German army is reported to have appealed to President von Hindenburg for help against Free Mason lodges which he claims have "passed a death sentence upon me and my revelations of their pernicious methods."

Canada Supports League

Membership In League Of Nations Organization Is Growing

Thousands of active supporters of the League of Nations are now organized throughout Canada. According to the general secretary of the League of Nations, in Canada, the membership of the organization here has grown in three years from less than a thousand to almost fifteen thousand in number. Although strongly supported by women's organizations, more than half the members are business men—in British Columbia the male membership running to 85 per cent.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

Senora Alice Cunha Machado was free on a writ of habeas corpus because the Supreme Court listened to her plea that her child did not deserve to be born in jail.

10 minutes ago—

How many people you know who end their colds with Aspirin! And how often you've heard of its prompt relief of sore throat or tonsillitis. No wonder millions take it for colds, neuralgia, rheumatism, and the aches and pains that go with them. The wonder is that anyone still worries through a winter without these tablets! They relieve quickly, yet have no effect whatever on the heart. Friends have often told you Aspirin is marvelous; doctors have declared it harmless. Every druggist has it, with proven directions. Why not put it to the test?

Aspirin is a Trademark Registered in Canada

ASPIRIN

HAS PLAN TO AID PRODUCTIVITY OF WESTERN SOIL

Toronto.—The rehabilitation of the soil of the western provinces through the use of nitrate fertilizer developed by electricity, possibly in Manitoba, is envisaged by Prof. J. Watson Bain, head of the Chemical Engineering branch of the faculty of applied science, University of Toronto.

Addressing the Toronto Electric Club, Prof. Bain said that by passing the component parts of water and air through a simple chemical process, ammonium nitrate, the best and most concentrated fertilizer known, could be produced in unlimited quantities. By the fusion of rock phosphate and coke, a compound of phosphorus used in the fertilizing process would result.

"I believe," he said, "that before many years pass we will have to supply fertilizer to the west. They have been 'mining' the ground there in the production of wheat. In Germany, to show how important fertilizers are to Canada, it is not uncommon to produce forty bushels of wheat to the acre. In Ontario the average production is twelve bushels."

Before many years, Prof. Bain believed, a great plant would be installed in some of the northern rivers running into Hudson Bay, where electric power could be developed. Water would be taken from the river to obtain its hydrogen content and nitrogen would be removed from the air. The two could be united to form the great basic element of plant food. He was of the opinion rock phosphate could be found in the same area and that coke could be freighted in to complete the manufacture of phosphorus in the huge electric furnaces which would derive their heating power from the harnessed waters of the river.

In both processes, Prof. Bain believed, electricity would be used for the heat necessary in breaking up the elements of the mediums used. "It will be a contribution of electric engineering," he said. "It is a field in which we can join hands to produce for the benefit of the country at large."

Arms Plea a Failure

German Communists Did Not Secure Enough Signatures To Petition

Berlin.—An attempt by Communists to hold a nation-wide plebiscite on a law proposed by them saying "it is forbidden to build a battle cruiser of any kind" has failed.

About 2,000,000 Germans signed the Communist petition for a plebiscite on the subject. The constitution prescribes that one-tenth of the qualified voters, or about 4,000,000 persons, must sign a demand for a referendum and therefore no plebiscite will be held.

C.P.R. Head Celebrates Birthday

Montreal.—E. W. Beatty, president of the Canadian Pacific Railway, has celebrated his 51st birthday. "Mr. Beatty was born in Thorold, Ont., on October 18, 1877. He entered the service of the company in 1900, is now chairman and president in 1901, as assistant to the general counsel. In 1914, he became vice-president, and in 1918, president, succeeding to the post made vacant by the death of Lord Shaughnessy.

Sentenced To Three Years

Weyburn, Sask.—Anton Jost, young Hungarian, of Pangman, was sentenced to three years in penitentiary when a jury found him guilty of attempting to murder Mrs. Kauffman and Martin Kauffman. The jury found that Jost was not guilty of wounding Anale Kauffman with intent to murder or do her harm.

Naval Papers Recovered

London, Eng.—Newspaper reports of the loss of naval documents of "very great importance" between Markon-on-the-Thames and in Chatham Royal naval barracks have proved an exaggeration. It was learned at the Admiralty that the papers in question were of no importance and have been recovered.

Appeal Not Withdrawn

Toronto, Ont.—Stating that neither he nor Mr. Wilson had sanctioned the withdrawal of the appeal, W. T. R. Preston stated that his and Wilson's appeal against the verdict of the trial jury at Cobourg, in the libel action brought by Sir Arthur Currie, was being replaced on the list for hearing.

M. W. U. 1762

Heroism At Sea

Harrowing Tale Of Fire Aboard Ship Is Related

Vancouver.—With seven of her crew painfully burned and scalded, the Blue Star Line steamship, "Trojan Star," Capt. G. A. Griffiths, arrived here with a harrowing story of fire on board while the vessel was off the California coast on the night of October 12.

William P. Tension, Hull, Eng., fireman aboard the ship, was burned to death and his body buried at sea. The fire broke out at 6:20 p.m., October 12, when an oil jet burst in the stokehold, trapping eight men of the engine room force in a wall of flames that sprang up in an instant.

Second Engineer Sydney P. Houston and Fireman James, according to the ship's officers, were chiefly responsible for the safety of the engine room crew. Seeing that the way to safety on deck was barred, Houston led the men into the bilged under the boiler. The flames roared above them and for three hours and thirty minutes they lay there in oil and water with the plates growing hotter and the water in which they lay steadily approaching the boiling point. Tension, by his chivalrous conduct and singing of songs, aided his comrades while awaiting rescue. Tension went temporarily insane from the heat and rushed back to the engine room again, where he succumbed.

Only an act of providence stopped the flames. A big steam pipe in the stokehold burst, pouring a dense cloud of steam into the compartment, finally smothering the fire and permitting the deck crew to reach the imprisoned engine room crew who were smothered from head to foot with fuel oil, soaked in water, blistered and partly gassed. They are all recovering.

Radio Station Opened

Canada's Largest Broadcasting Station Operating At Winnipeg

Winnipeg, Man.—Official opening of the new broadcasting station of the Manitoba Telephone System, the largest in Canada, took place at the Sherbrooke street studio.

Hon. W. R. Chubb, Minister of Telegraphs, presided, but which was immediately set in operation the big, 500-20,000 watt transmitter situated at the Agricultural College, eight miles distant.

The power of the new station is more than twenty times that of the old plant.

The program included an address by Premier John Bracken and a band concert by the Winnipeg Salvation Army Citadel Band, under the direction of Bandmaster H. G. Morris. The official wave length of the station will be 384.4 metres and 200 kilocycles.

Wins Mayoralty Contest

W. H. Malkin Is Elected Mayor Of Greater Vancouver

Vancouver.—With a majority of 1,608 votes, W. H. Malkin, pioneer wholesale merchant, was elected first mayor of the amalgamated city of Greater Vancouver, comprising Vancouver City, Point Grey, and South Vancouver municipalities, in the civic elections. Mr. Malkin defeated Mayor Louis D. Taylor, six years' chief magistrate of Vancouver.

The vote in the thirty-nine polls was: Malkin, 18,733; Taylor, 17,067. Louis Rubinowitz, another mayoralty candidate was never a factor in the contest. He polled but 207 votes. Mr. Malkin's term of office will be two years.

Pass Radio Exams

Western Candidates Obtained Certificates Of Proficiency In Telegraphy

Ottawa.—The radio branch of the Department of Marine and Fisheries announced that 18 candidates were examined during the month of September. The following Western candidates were successful and obtained certificates of proficiency in radio telegraphy: Commercial, first class—M. E. D. Jacobson, and J. H. Stow, of Vancouver.

The following have been further examined and have had their existing certificates endorsed for additional equipment: C. Blacklock, Vancouver; A. R. Bock, and W. J. Pickering, Regina, Sask.

Liquor Revenue Helps

Toronto.—The Evening Telegram says that only the sale of \$8,000,000 worth of liquor has saved the Ontario government from facing a deficit on the year's operations, and that a considerable portion of the liquor revenue will go to balance the expected \$2,000,000 shrinkage in the succession duties taxes.

Workman Buried In Concrete

Two Men Victims Of Accident At Cleveland

Cleveland, Ohio.—The bodies of two workmen who were buried alive in a 108 foot hole under a fifty ton fall of fresh cement at the Union Depot site here, were cut from the hardened mixture after a desperate 12-hour struggle.

The two men were Patrick Toolis, 29, and Patrick Cleary, 27, both of Cleveland.

Toolis and Cleary were working at the bottom of the hole in which concrete was to be poured. A few feet away was another pit into which concrete had been poured a short time before.

Under the pressure of the tons of concrete, the retaining walls of the second gave way. The concrete tore through four feet of earth and poured down upon the two victims.

LOOK FOR BIG GOLD RUSH IN NORTH ONTARIO

Winnipeg, Man.—Valuable gold discoveries made during the past summer and this fall at Crowe River by the Northern Aerial Mineral Exploration Company probably will bring a stampede of prospectors rivalling that to Red Lake a few years ago. Capt. H. A. Oakes, operating manager of the company, states Crowe River is near the Patricia mining field in Northern Ontario.

At least 200 prospectors are awaiting their chances to make Crowe River before the freeze-up, and scores are intending to be there in the dead of winter. The more fortunate will go by airplane, but the majority will take the next best means of getting to their destination—by canoe or dog team.

"We have every proof that the Crowe Lake strike is a good one," Capt. Oakes stated, "and our groundmen, including engineers and other technical experts will be on the scene, possibly the entire winter."

The company will continue to carry on operations this winter by plane, although this branch of its service will not function in any other territory but Ontario.

The machines have been brought to Winnipeg for housing during the winter, and four more Fokkers and Fairchild will be flown here by the end of the week. Captain Oakes and Al Chessman, chief pilot, brought two of them here the beginning of the week.

The plane that sank at Chesterfield Inlet on the Hudson Bay recently has been salvaged and will be shipped here in about another month. It will have to remain at Churchill until freeze-up as the only means of transportation to the railway is by tractor. The crew will come also.

All planes which operate this winter would be equipped with skis. Captain Oakes said, as there would not be facilities for machines with wheels.

HIGH COMMISSIONER FROM BRITAIN

This photographic portrait of Sir William Clark, first high commissioner from Great Britain to Canada, who arrived recently at Ottawa, was made this summer in London, by Missa Keene, Fellow of the Royal Photographic Society. Mrs. Keene, who lives in Oakville, has done photographic portraits of many distinguished people in America, Europe and Africa, and has also made photographic studies of national types in many parts of the world.

TO ENCOURAGE SETTLEMENT

J. N. K. MACALISTER

Assistant Commissioner, Department of Colonization and Development, Canadian Pacific Railway, who says that the newly organized Colonization Finance Corporation of Canada Limited is the most important step ever taken jointly by Canadian private land-owning bodies in the effort to encourage agricultural settlement on a sound basis. Millions of acres are involved and the scheme is being developed in conjunction with the Canada Colonization Association, of which Mr. Macalister is a director.

Take Up Residence In London

Mr. and Mrs. Tunney Reported To Have Leased House In Mayfair

London.—Mr. and Mrs. James Joseph Tunney, according to reports, have taken the lease for a year of a house in the Mayfair quarter of London where after their honeymoon. It is said they intend to form a literary salon.

Harry Preston, English sportsman and friend of the retired world heavy weight champion, states that he still expects to see Gene earlier the ring again. He said that he had told Tunney that there remained one record for him to break, referring to the occasion three years ago when Jack Dempsey fought four English heavyweights in succession at a boxing tournament.

Memorial Day For Celebrated Explorer

Norwegian Government Will Honor Memory Of Roald Amundsen

Oslo, Norway.—The anniversary of the discovery of the South Pole by Roald Amundsen, in 1911, will be celebrated on December 14, by the Norwegian government as a memorial day for the famous explorer who died in an effort to bring relief to the beleaguered of General Nobil.

Besides the extensive celebration in Norway, Norwegians all over the world will be informed of their government's decision to enable them arrange other commemorations.

New Daily For The Pas

Expect Publication Will Start Early In December

Calgary.—It is expected that the Northern Star, the proposed new daily for The Pas, for which a Canadian Press franchise has been granted, will commence publication early in December. A building is now in course of construction there to house the editorial, business and printing departments. G. M. Bell, president of the Calgary Alberta Company, is president of the new company, which has been formed to undertake the enterprise, and S. L. Cross, Regina, is vice-president. Associated with them will be P. C. Galbraith, at present news editor of the Winnipeg Tribune, as business manager, and Fred Johnson, mining editor of the Winnipeg Tribune, as managing editor.

B.C. Settlement Plan Has Been Exaggerated

Reports Being Circulated Are Causing Government Some Trouble

Victoria.—Letters are pouring into the Government offices here from people who would avail themselves of the land settlement scheme recently announced by Premier Tolmie. However, many reports concerning how far British Columbia will go to deal with the settler have been exaggerated and these are causing trouble.

Some reports stated that the government would give 40 acres of cleared land, a log cabin and \$2,000 in cash, but the Premier denied this in a statement issued.

Premier Attends Luncheon

Honorary Association On Return To London

London, Eng.—Premier Mackenzie King, of Canada, attended the luncheon tendered by the British Government to the delegates of the Empire Parliamentary Association who have just returned from their tour of Canada, and are about to disembark, some of them to return to distant parts of the Empire.

Premier King said he was sure the delegation while in Canada had learned how Canadians regard the greatest possible pride in British traditions and institutions.

ALBERTA PLANS TO AID SETTLERS FROM BRITAIN

Edmonton.—Closer co-operation between the Provincial and Dominion Governments in regard to future immigration work was decided upon at a conference held between Hon. Robert Forke, Federal Minister of Immigration and Colonization, and Premier Brownlee and members of his cabinet.

There will probably result from the conference in the way of definite forward moves, an agreement to bring out next year a number of British women for domestic help, the establishment of training schools in the old country for prospective emigrants to Canada, and the erection of 20 or more cottages in the Lethbridge irrigation district for newly arrived settlers.

All the new policies thus tentatively decided upon will be of a tripartite nature, as between the Alberta, Dominion and British governments. The cost of the various projects will be shared by the three parties, which will in this way be closely linked together in the promotion of selected British immigration to this province.

According to Mr. Forke's information, a considerable number of British women immigrants can be secured as domestic help and it is proposed to give this phase of the question some definite trial during the coming years. The training schools also proposed as a matter of future policy will be established in both England and Scotland. They will be for the purpose of familiarizing likely immigrants to Canada with actual living and farming conditions in this country and will be closely supervised.

A great deal can be done in this way, in Mr. Forke's opinion, to give prospective settlers a measure of experience and so to ensure their ultimate success. "The Provincial Government will now consider as part of its future program the building of 20 cottages on Lethbridge irrigated farms in which farmers newly brought out under the tripartite scheme may be settled. This will be with a view of getting a regulated flow of settlement. Mr. Forke's visit was part of his itinerary on a Western tour which is in connection with all the provincial governments.

Coal tar, from which dyes are made, is the essence of the plant life that flourished millions of years ago.

FINE TRIBUTE IS PAID TO CANADA BY U. S. JUDGE

New York.—"The country in which you were born is rapidly coming of age; you have no reason to be ashamed of it, and it considers you its liaison officers in the great country of your adoption." These were the closing words addressed by the Hon. Justice E. Fabre Surveyor to the semi-annual gathering of the Canadian Society in New York recently.

Justice Surveyor spoke to a distinguished group which included Sir John Gloster Armstrong, British consul general at New York, and Mr. Frederick Hudd, the Canadian trade commissioner here. His address was a survey of Canadian progress toward autonomy and nationhood. "The effect of this change," he said, "is to bring Canada closer to Britain than ever. The Canadians would never waver in their fidelity to the British crown."

Justice Surveyor sketched the gradual accession to Canada of broadened jurisdiction in her courts of law and increase in her powers in dealing with other nations of the world.

"Canada's election to the council of the League of Nations," he said, "removed all doubt as to the place it holds at Geneva."

Will Be Responsible To Canadian Doctor

British Doctors To Aid In Inspection Of Emigrants

London, Eng.—A roster of 350 British doctors is being formed for medical inspection of emigrants to Canada. Canadian doctors will be retained, each doctor being in charge of a zone and British doctors within each zone will be responsible to the Canadian doctor. Miss Franklin, secretary of the Women's Overseas Settlement Society, says her society will welcome establishment of domestic training schools for women migrating to Canada. Sir George Magnum, Church of England canon for Empire Settlement, says domestic training schools will be a great benefit to the migration movement.

Offered Appointment

Sir Lomer Gouin May Accept Lieutenant-Governorship Of Quebec

Ottawa.—The Citizen publishes the following: "Although he has not officially accepted, it is expected here that Sir Lomer Gouin will respond to the offer of the Lieutenant-governorship of Quebec when it becomes vacant next January on the expiration of the term of Governor Perceux. Many months ago the prime minister wrote a letter to the erstwhile minister of justice, expressing the view that he should round off his career by accepting the Lieutenant-governorship of the province."

Typhus In The Ukraine

London, Eng.—An Exchange Telegraph dispatch from Riga reported 10,000 cases of typhus in the Ukraine, with many deaths. Schools and moving picture houses were closed. Provisions and medicine were needed urgently, the dispatch said.

Returns To California

Riverside, Cal.—Jessie Clark, sister of Sanford Clark, 16-year-old accused of her uncle, Gordon Stewart Northcott, alleged killer of boys on his Riverside chicken ranch, has arrived here from Canada.

House Shortage In Calgary

Calgary, Alta.—Although 300 new houses have been erected in Calgary this year, a serious shortage is reported. The population of the city schools showed an increase of 600 over last year on re-opening.

Air Phones A Success

London, Eng.—The Cross Channel Air Company announces that successful experiments had been made whereby passengers called their city business houses by wireless telephone while flying as high as 12,000 feet.

Radio Popular In China

Peking.—The Peking radio broadcasting station announces that it now has 2,630 paid subscribers, gained in less than one year. Three women announcers are on the staff of the station.
